XHD Modular Bumper System

The most advanced, toughest, most flexible bumper system ever created!

No other bumper can give your Jeep® this many looks. Modular design provides dozens of different looks and styles. You can build the exact bumper of your choice! Custom designed for the 1976-2010 Jeep® Wrangler & CJ, each component maximizes the oversized look of the vehicle. All components are constructed of heavy-duty textured black powder coat steel with a tough E-Coat under-coating or polished, no rust, prime 304 stainless steel for the ultimate look! These tough finishes will provide years of heavy-duty use. Matching rear bumpers are available for a complete look.

XHD Storage Ends

11540.22
Storage Ends,
Black

Looking for an easily accessible yet secure storage solution for your Wrangler? XHD Storage Ends from Rugged Ridge turn your bumper into a stylish watertight storage vault. The XHD Storage ends are a great place to stow recovery gear and other valuables. Beefy steel construction, a watertight seal, and lockable lid helps keep mud and water out and your gear in.

XHD Tube ends

Add tube ends to your XHD bumper for added protection and a classic OE look! XHD Tube Ends offer wraparound protection and added clearance for oversized tires. Available in either textured black powder coat or polished 304 stainless steel for a long lasting durable finish.

* includes Stainless D-Rings ** Will not work with Warn Power Plant Winch.

Build the Ultimate XHD!

Need more front-end protection? No problem! Need to mount up a quartet of lights to chase away the night? No problem! Need more clearance for rock crawling? No problem! Now available in polished stainless steel for the ultimate look! Only the XHD Bumper from Rugged Ridge can give you this many options while providing the quality you demand.

STEP 1 Select Your Base - Upgrade Any Time

The XHD Short Base comes in two designs; Integrated Winch Mount for use with almost any aftermarket winch (including the new Warn Power Plant with optional mounting blocks #11540.15) and for the 2007-10 Wrangler, a Light Mount Base with two light mounting locations. The Short Base attaches quickly with two enclosed D-Ring mounting brackets. This eight bolt frame mount design provides the toughest bumper attachment found anywhere while creating two overbuilt pull points. The 76-06 CJ/YJ/TJ XHD matches the look and utility of the 07-10 JK XHD but does not include the fog light cutouts and is only available with a winch mount. This bumper mounts close in on the frame rails, drawing the bumper closer to the body allowing for an increased approach angle. The narrow overall width gives enormous clearance for the front tires. Each JK Short Base includes two protected cut outs for your JK's factory fog lamps. All Short Bases includes side filler plates to close off the ends for a finished look.

Winch Mount Base,
Black*

11540.11
Light Mount Base,
Black

11540.71
Light Mount Base,
Stainless

* Winch sold separately.

STEP 2 Select Your Ends - Turn Your Short Base Into A Full Size Bumper

Standard ends easily mount to any Short Base with six oversized 12mm bolts to turn your short bumper into a full size bumper design. Each Standard end is recessed to provide the ultimate seamless fit. Storage ends and tube ends also available, more details on page 4.

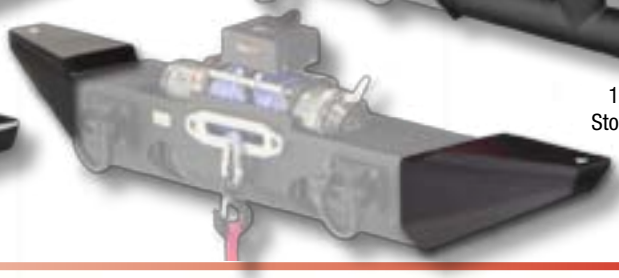
Stainless



11540.22
Storage Ends,
Black

STEP 3 Select Your Tubes - Tough Tubular Options Provide Off Road Protection

Add on a durable .120 wall tubular RRC mount, Stinger or Hoop Overrider to create the ultimate off-road bumper. These are some tough tubes! The Stinger and RRC mounts use a unique D-ring attachment so you will need separate optional D-rings (part no. 11235.01). The enclosed HD D-rings on the short base will not be used with these two tubular options.

Why two different RRC Mounts? For 1976-2006 CJ, YJ and TJ's with Rugged Ridge 7" oversize fender flares, the JK RRC Mount is wider and matches the look of the wider flares. For CJ's, YJ's and TJ's with stock width fender flares, the 11540.48 RRC Mount is designed to match the width of the factory flares.

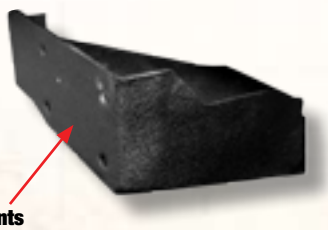
Xtreme Heavy-duty (XHD) Rear Bumper System For 2007-10 Wrangler

Make the most of your rear bumper with our XHD Rear Bumper System. Features easy installation, amazing looks and two reinforced heavy-duty D-Ring attachment points. Special "inner mounting plate" provides an extremely secure mounting point - strong enough for off-road use! The two-piece design allows use with and without tire carrier options. Heavy-duty powder coated steel design looks great but is extremely tough. Mount on the optional Tire Carrier and you can hold up to a 35" tire.

11546.20 XHD Rear Bumper

11546.20 XHD Rear Bumper



Heavy-duty D-Ring attachment points are strong enough for off-road use!

D-rings attach securely to the frame of the vehicle for a rock solid recovery mounting point.

Tire Carrier Mount Add-on for 11546.20, Textured Black 07-10 Wrangler, Each	11546.22

XHD Tire Carrier Mount For 2007-10 Wrangler

The perfect addition to the XHD rear bumper is the matching XHD Tire Carrier Mount. The latch uses a sturdy locking mechanism for security and a tough appearance. Our engineers have gone to great lengths to make this the quietest tire carrier on the market, no more rattling! The massive hinge pivots on a heavy-duty roller bearing and supports up to a 35" tire. A multi-position locking pin mechanism keeps the arm in the open position when you need to open the tailgate, even on the steepest grade. The XHD Tire Carrier Mount attaches to the XHD Rear Bumper using the D-ring mounts for a solid foundation.

Over Center Latching Mechanism With An Attached Security Pin Keeps Your Carrier Secure

Includes Bolt On Third Brake Light Extension

Tire Carrier Mount Add-on for 11546.20, Textured Black 07-10 Wrangler Each	11546.22

Tire Carrier Linkage

Has opening your rear tailgate become a burden since you added a swing out tire carrier? Has it become easier to crawl over the rear seat, to grab your gear, than hassling with the tire carrier? The Rugged Ridge Tire Carrier Linkage Kit eliminates the issue and makes accessing the cargo area quick and painless. Once installed the linkage mates the tire carrier to the tailgate, so both open in a single fluid movement. The Tire Carrier Linkage is designed to work with Rugged Ridge XHD, RRC and Rock Crawling rear bumpers and tire carriers, but will also work with most other aftermarket tire carriers. No drilling is required to mount the linkage to the tailgate, but some minor drilling is required to mount the linkage to the tire carrier.

Tire Carrier Linkage	Part #
Tire Carrier Linkage, 87-06 Wrangler (TJ-YJ) (NEW)	11503.90
Tire Carrier Linkage, 07-10 Wrangler (JK) (NEW)	11503.91

RRC Rock Crawling Bumpers

Introducing the toughest, most durable off-road tube bumpers ever made! The Rugged Ridge Rock Crawling Bumpers (RRC) feature heavy-duty .120 wall 2" steel tubing treated with a special "E-Coating" and then dual stage powder-coated to ensure long life and a no-rust finish. These overbuilt tube bumpers not only look good but they are built to last! All RRC designs have been developed with true off-road enthusiasts in mind. From the reinforced welds to the built-in D-ring attachments, these bumpers and side guards are built to take what ever the trail throws at you.

RRC Front Grille Guards

The RRC Front Grille Guard is an easy to install front bumper system that offers an expanded opening for use with a winch (winch plate not included) or with up to four off-road lights. The RRC side supports elevate the tube upwards to provide fender protection while not altering the side clearance. Two reinforced D-ring attachments allow for easy use of optional D-rings (part no. 11235.01).

RRC Rear Bumpers

Rugged Ridge offers two RRC bumper options for the rear of your Jeep®. Both options work off a similar frame mounted platform that features a heavy-duty grid like system with raised sides for the ultimate protection and greatest ground clearance. All RRC Rear Bumpers also feature a reinforced hitch box that is designed for off-road accessories (not designed or rated for towing. Use only for accessories). The heavy-duty rear tire carrier model mounts your tire off the rear bumper taking the load off your tailgate. With a reinforced grease fitting and special latching mechanism, this tire carrier is capable of holding up to a 35" tire.

Tire Carrier Recovery (TCR) Bag

The TCR bag has been designed to mount to Rugged Ridge RRC, XHD & Classic rear tire carrier bumpers. This bag allows the storage of all your recovery gear between the A-frame uprights on your rear tire carrier. Constructed of weather resistant material & features a zipper flap to help protect your gear from the environment. Attaches easily with 4 heavy-duty nylon straps that allow for quick removal and transport.

RRC Side Armor

Keep your rocker panels from being beaten to a pulp on the trail with Rugged Ridge's Side Armor. Built from heavy-duty 2" x 0.120" black texture powder coated steel tubing, these guards will take the beating that was meant for your sheet metal. JK models feature a simple bolt-on design that utilizes existing body mount locations for a secure, rattle free installation. YJ and TJ models require drilling. The black texture finish resists scratches and gives a slip-resistant surface for door entry. Sold as a pair and includes all necessary installation hardware.

Front Tube Bumpers For 2007-10 Wranglers

11561.10 Front Bumper, Textured Black w/ Winch Cut-Out, 07-10 Wrangler

Rugged Ridge Bumpers and Side Tube Steps have been engineered to the industry's most exacting specifications. All powder coated Rugged Ridge bumper products are "E-coated" to ensure a no rust finish. Rugged Ridge Bumpers and Side Steps can take small rock chips and still maintain their rust protection. All Rugged Ridge Front and Rear Bumpers feature smooth ground welds for an unbelievable look and further rust protection. This exclusive smooth grind process virtually eliminates small weld "pockets" that never seem to get full paint coverage and tend to rust over time. Each front bumper has two welded light tabs to easily mount off-road lighting. Need to mount a winch on your Jeep®? The winch mount version of the Rugged Ridge Front Tube Bumper features a special winch cut out to clear the roller fairlead. Finally, all Rugged Ridge Bumpers feature welded end caps rather than plastic end caps.

JK Stubby Tube Bumper

Rugged Ridge has taken their industry leading Front Tube Bumper and re-designed the ends to make the ultimate high clearance off-road winch bumper. This unique design has a built-in winch mount and special cut-outs for the JK Wrangler factory fog lamps. Like our regular tube bumper, we have cut into the front tubing allowing the bumper to "hug" the front end of the Jeep. Each bumper includes durable welded end caps and polished smooth welds for the ultimate in durability. NEW: Special inside pre-coat eliminates any chance of interior rusting. A Rugged Ridge Exclusive!

Rear Tube Bumpers for 1955-2006 Jeep®

Rear Bumpers have a larger 17" rear opening allowing the use of oversized tires (up to 31") on the factory spare tire mount. This is a Rugged Ridge exclusive! Rugged Ridge Rear Tube Bumpers also feature an frame mounted hitch option that allows for lightweight towing (2,000lb towing weight, 200lb tongue weight capacity). Most other rear tube bumpers with integrated hitch boxes do not recommend towing, therefore making the hitch box virtually useless.

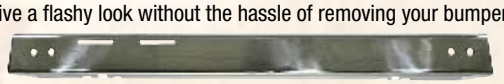
11107.05 Front Bumper without Holes, Stainless

Dress up the front of your vehicle with this simple to install bumper overlay. This overlay installs over your stock bumper to give a flashy look without the hassle of removing your bumper.

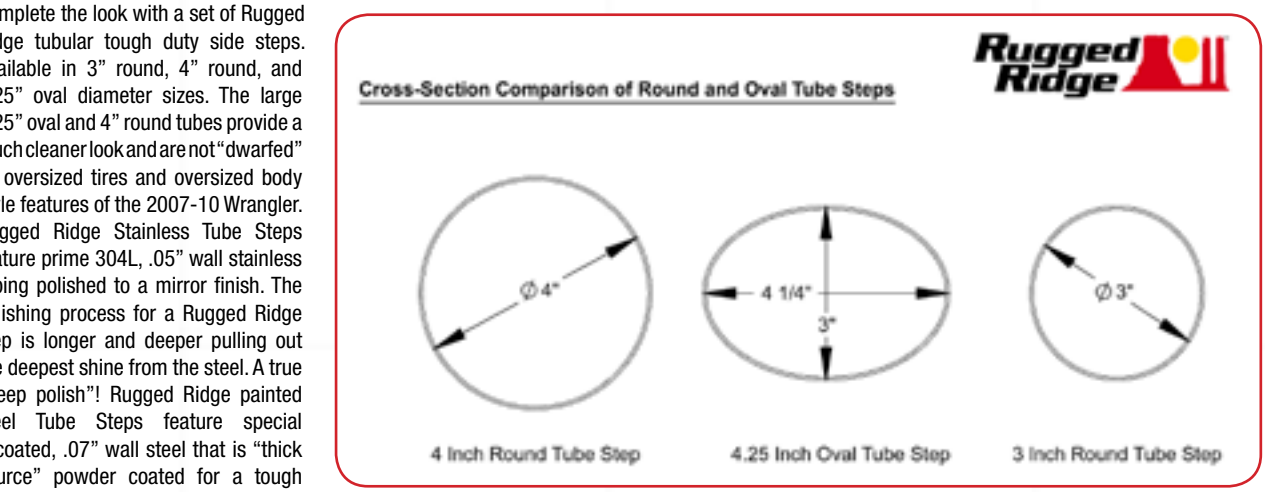


11109.02 Front Bumper Overlay, 87-95 Wrangler

Side Tube Steps

07-10 WRANGLER MODELS HAVE 3 TUBE STEP SIZES TO CHOOSE FROM:

Complete the look with a set of Rugged Ridge tubular tough duty side steps. Available in 3" round, 4" round, and 4.25" oval diameter sizes. The large 4.25" oval and 4" round tubes provide a much cleaner look and are not "dwarfed" by oversized tires and oversized body style features of the 2007-10 Wrangler. Rugged Ridge Stainless Tube Steps feature prime 304L, .05" wall stainless tubing polished to a mirror finish. The polishing process for a Rugged Ridge step is longer and deeper pulling out the deepest shine from the steel. A true "deep polish"! Rugged Ridge painted steel Tube Steps feature special E-coated, .07" wall steel that is "thick source" powder coated for a tough chip resistant finish. The special E-coat undercoating provides double rust protection as it bonds to the metal creating a protective layer found nowhere else. All Rugged Ridge Tube steps feature a truly custom fit with installation brackets constructed of durable 3/16" powder coated steel for long life and years of flex-free use. Each Tube Step features special UV treated no-slip step pads with 5 mounting pins. These step pads are preinstalled on top of the tube - no exposed metal to rust. All 2007-10 Wrangler models are no drill designs. 1976-06 models feature frame mount design which may require drilling.



11593.04 3" Round Tube Steps, Stainless, 97-06 Wrangler

RUGGED RIDGE TUBE STEPS: QUALITY AND VALUE!

Whether you want to dress it up flashy or keep it subtle, Rugged Ridge has a tube step style just for you. Why settle for only one tube style when Rugged Ridge offers so much more?

All-Terrain Flat Fender Flares

Special side marker light brackets included for use with your factory side marker light

Now, with the NEW All-Terrain Flat Fender Flares from Rugged Ridge you can add a bigger tire option for a true off road look. You can also use in combination with a suspension lift for maximum off road performance. These exciting new flares are out-of-the-box ready to turn your street Jeep into an off road machine. By removing your original flares and replacing them with these high clearance designs, you can run larger tires without interference from the flare. The ability to run a larger tire with little or no suspension lift means a "lower center of gravity" making your JK more stable, yet you still get greater ground clearance necessary for off road. With 1.5 inches less coverage in the front and 1 inch less in the rear these flares are slightly narrower than factory, yet still maintain proper tire coverage and aggressive looks. Constructed of a flexible UV treated high impact thermoplastic, these flares are designed for the trail and create a whole new look for your JK. Easy to install, these flares replace your factory flares, attaching to the factory mounting points with no drilling. Simply remove your original flares and add on the All Terrain flares. The kit also includes easy to install mounting brackets that allow you to relocate and use the existing factory side marker lights. The All Terrain Flat Fender Flare is the hottest looking, most functional Off Road Flare available for your JK! Finally, because no cutting or drilling is required, if you ever want to switch back to your original factory flares, there's no problem!

JK

All Terrain Flat Fender Flare Kit	Part #
Flat Fender Flare Kit, 2007-10 Wrangler 2 and 4-Door, 4 Pcs. (NEW)	11620.10

All Terrain Fender Flares

Get that aggressive off road look with the NEW Rugged Ridge All Terrain Fender Flare! These 6" flares feature a stylish design while protecting your vehicles paint from flying rocks and mud. Constructed of durable UV treated ABS with a slight texture, these paintable flares provide a great look while being able to handle whatever nature throws at them. Each All Terrain Flare is designed to fit factory mounting points (CJ and YJ designs require some drilling) with durable rust proof stainless fasteners. Each front flare uses your existing side marker lights by easily attaching to custom light cut-outs. Backed by an industry leading 3 year limited warranty, these NEW All Terrain Flares will really set you apart from the crowd!

Oversized 7” Flares

Need a little extra coverage for those over-sized tires? The Rugged Ridge 7” Flare gives you the extra coverage you need while providing the clean look of original equipment designs. Each over sized Flare is constructed of virtually indestructible UV treated thermoplastic to provide years of service. The special UV treatment put on each flare provides protection from sun fading. These Flares are designed to bolt onto your vehicle but for CJ and 1987-95 Wrangler models some vehicle modification may be necessary to truly cover those oversized tires. If you go off-road and need to protect your vehicle from rock chips and debris, look to Rugged Ridge 7” oversized Fender Flares! Includes all mounting hardware.

Replacement Fender Flare Kits

Rugged Ridge provides the most comprehensive replacement Fender Flare program on the market today. Covering model years starting in 1955 until current, Rugged Ridge has you covered when it is time to replace or upgrade your Factory Fender Flares. Each Flare is constructed of virtually indestructible, durable, UV treated thermoplastic to provide years of service. Each replacement flare is designed to fit into your factory mounting holes (some models may require some hole relocation) for ease of installation. Just need to replace one flare? No problem. Rugged Ridge offers individual replacements to keep your investment to a minimum.

Wheels For 2007-10 Wrangler

15301.10 Satin Black with Machined Lip | 15301.01 Satin Black | 15301.40 Silver | 15301.20 Chrome

LIMITED EDITION

15301.50 Hyper Silver, 17"x9"
*while supplies last

Rugged Ridge is proud to introduce the toughest new design in custom wheels for 2007-10 Wrangler. This Hub-Centric design exactly centers the wheel over the hub providing proper balance, clearance for brake rotors, steering components and suspension. Better fit, no wheel vibration! Stainless steel button-head socket cap screws around the perimeter of the outer wheel face give a great 3-piece look, and also let you accessorize with our optional trim ring. Each wheel includes a UV-treated polished center cap that replicates a manual hub for that off road look. Available in five finishes: Satin Black Powdercoated, Satin Black Powdercoated with Machined Lip, Silver Powdercoated, Dual-Stage Polished Chrome, and Limited Edition Hyper Silver. The durable powdercoated finish gives an ultra-hard finish for long life and a great look. The chrome finish uses a dual-stage process to give a deep reflective mirror-like shine that commands attention. Rugged Ridge wheels have been independently tested and certified to meet/exceed SAE J2530 standards for wheel strength and durability. Limited lifetime structural warranty and 1 year finish warranty (see warranty information for details and limitations).

COMING SOON!

NEW!

Steel D-Window Wheels

Legendary looks, brutally epic strength. Each Rugged Ridge steel wheel is stamped from heavy gauge steel and powder coated with a durable black finish. Our wheels have been engineered, tested and certified to meet and exceed the strenuous SAE J2530 standards for wheel strength and durability. Turning a million cycles at double their load capacity to ensure they could hold up to abuses of off road use. Because a Jeep isn't a Jeep until its lifted and outfitted with oversized tires. (Expected Spring 2010.)

Description	Part #

Wheel Spacer & Adaptor Kits

15201.02 Wheel Spacer, pair, 1987-06 Wrangler with 5 on 4.5” Bolt Pattern

15201.03 Wheel Spacer, pair, 1945-86 Jeep® with 5 on 5.5” Bolt Pattern

15201.04 Wheel Adapter, pair, for Converting Bolt Pattern 5 on 4.5” to 5 on 5.5”

15201.05 Wheel Spacer, pair, 2007-10 Wrangler with 5x5” Bolt Pattern

These hub centric spacers / adapters move your wheels out to help fit wider tires and give your vehicle a wider track and improve stability. Constructed of double anodized black extra thick 6061T6 aluminum for long life and extra corrosion resistance. All hardware is grade-8 for extra strength. Each part number comes as a spacer pair. Included are 10 pre-installed grade-8 wheel studs, 10 lug nuts and thread locker.

See page 91 for UTV Wheel Spacers

CAUTION!

CAUTION: Rugged Ridge™ recommends use of wheel spacers with all suspension lifts to reduce risk of roll over or other accident associated with modifying ride height for increased off road capabilities. See additional product safety information and WARNINGS at back of catalog.

Water Resistant Cab/Full Covers

Custom fit Cab Covers protect your vehicles interior from dust, dirt and light showers. Constructed of vinyl coated polyester fabric or a space age cover material (Weather Lite/Three Layer Covers), these easy to use covers install in minutes. Reinforced elastic side straps and under body hooks hold the cab cover in place. No drilling required. Complete vehicle covers also available in breathable Weather Lite fabric or durable Three Layer Fabric. Weather Lite is perfect for inside storage while the Three Layer covers are designed for short term outdoor use.

Hard Top Sound Deadener/Insulation For 2007-10 Wrangler

If you chose the Hard Top option for your 07-10 Wrangler then you need Rugged Ridge's Sound Deadener. This insulation is custom fit for the factory multi-piece hard top and greatly reduces noise inside your vehicle. The special insulation material is surrounded by heavy duty pleated nylon providing added interior comfort by insulating the cab from heat and cold. A no drill installation with durable hook and loop fasteners allows for an easy installation without removing your hard top.

Rugged Ridge

Rugged Ridge Summer Accessories

Summer time is why you own a Jeep®! With the warm weather comes the open air driving we all love. Rugged Ridge Summer Accessories make that open air driving more comfortable and stylish. Each accessory is manufactured to exacting specifications using tough matching vinyl coated fabrics that will provide years of great looks and high performance. When you demand the best, Rugged Ridge is what you need!
Early model and UTV Summer Brief applications available too! See page 116 for UTV.

Summer Briefs

Custom designed for each body style, these easy on, easy off briefs provide protection from the hot sun and sudden showers. Each Rugged Ridge Summer Brief attaches to the factory center hoop and windshield with heavy-duty nylon straps to prevent flapping. Key rear strap attachments have quick release fasteners so once your straps are set, they easily detach and reattach. Wrangler models also incorporate thick hook and loop side mounts to further secure the top. All 1997-10 models are designed to be used with a no-drill Windshield Header (sold separately, see bottom of page) for quick conversion from hard top to Summer Brief.

Mesh Summer Briefs/Island Toppers™

Special UV treated mesh fabric blocks the heat while allowing the cool breeze to flow through. The special weave of the Rugged Ridge mesh brief/Island Topper is designed for strength and durability while providing open air protection from the sun's heat. Available in two great styles: the Summer Brief that goes to the center hoop and the "Island Topper" Island Topper that goes back to cover those rear seat passengers. Don't forget the Header/Windshield channel needed to install these tops!

Island Toppers™

Provide the ultimate summer sun and rain protection with a Rugged Ridge Island Topper. Attaching the same way as our durable Summer Briefs, these full length tops provide protection from the elements for both the front and rear passengers. Rear attachment straps attach to the rear sport bar hoops on 1992-10 models. 1976-91 models include an easy to attach rear bow. All 1997-10 models are designed to be used with an optional, no-drill Windshield Header for quick conversion from hard top to Summer Brief.

Pocket Island Toppers™

Pocket Island Toppers feature zippered pockets to securely stow away important items like cell phones, maps and sunglasses.

Pocket Island Toppers for 07-10 Wranglers feature a rear zippered pocket for even more secure storage.

13588.35 Island Topper, Diamond Black, 07-10 Wrangler

The most advanced summer soft top solution found on the market today, the new Pocket Island Topper! This new design features tough diamond fabric combined with a pair of zipper front pockets (and one large rear pocket on 2007-10 Wrangler) for the ultimate full featured top. Unlike other summer tops on the market, the Rugged Ridge design features wider side hook and loop fastener straps, a reinforced front section and extra heavy duty nylon tie down straps.

Acoustic Brief and Island Topper™

This unique design drastically reduces road noise within the cab of your Jeep®. We have lined each Acoustic piece with a tightly woven, padded acoustic insert that absorbs outdoor noise to allow for a pleasant driving experience. You can finally listen to your favorite radio or CD while you enjoy open air driving! Durable quick release buckles for easy on - easy off installation. Acoustic Brief provides overhead protection for both front seat passengers. Acoustic Island Topper provides overhead protection for both front & rear passengers.

35-36"	-	12804.09	12804.15	-	12804.35	-

Note: To ensure proper fit, measure the diameter of the tire you are covering and pick the appropriate tire cover size listed above.

Quality, Value, Selection, XHD Replacement Tops have you covered!

New and improved XHD Replacement Soft-Tops from Rugged Ridge are now available with 50% thicker glass! Each Fabric Soft Top is specifically designed to easily fit the factory original soft top hardware. Simply take off the old top and slip on the new. It's just that easy! These new designs feature reinforced stitching on the heavy "pull" areas as well as heavy duty 30 mil thick glass! All XHD Soft Tops feature durable vinyl coated polyester and cotton fabric that will last the test of time. All sewn seams use marine grade thread to make sure it does not deteriorate or discolor in the sun. Each seam is literally "welded shut" with durable heat seal tape to keep moisture out while keeping the original look of the top intact. Attaching the Rugged Ridge Top is easy with the factory original "belt rail" attachment method; simply tuck under the rail and go! All our tops feature two choices of door options as Jeep® offered the 97-06 Wrangler with upper soft doors or with full hard doors. Rugged Ridge makes a Replacement Top that fits either! Each top is backed by an industry leading 3 year limited warranty against manufacturer defects.

The most comprehensive line of replacement soft tops on the market, so you can choose what options are best for you!

13727.35 Fabric Replacement Top with Upper Doors for 03-06 Wrangler

13729.35 Fabric Replacement Top (no upper doors) for 03-06 Wrangler

Zip-Out Windows

Get that safari look with the easily removable side and rear windows zipped out on Jeep® models! Rugged Ridge also offers a handy Window Storage Bag to protect those windows from damage. See page 31.

The Best Materials

All Rugged Ridge Soft Tops feature durable vinyl coated polyester and cotton fabric with "welded shut" seams that use durable heat seal tape to keep moisture out! These tops are real weather beaters and carry a *3 year limited warranty*.

Diamond Fabric now available

***NEW* 30 mil thick DOT approved windows are 50% thicker than lower cost soft tops! Each is UV treated for long life and ultimate clarity!**

Tinted Window Models Available

With Rugged Ridge you do not have to pay a fortune for 31% tinted window option! Each window has been up-graded to 30 mil which is 50% thicker than other soft top brands! Rugged Ridge tinted windows last longer and keep the heat out! (Door windows not tinted).

50% THICKER GLASS!

Rugged Ridge All Terrain Floor Liners for 1976-10 CJ & Wrangler

12920.01 Floor Liner, Front, 07-10 Wrangler

LIMITED LIFETIME WARRANTY

JK

The only floor liner with patent pending "Deep Tread" Technology!

These floor liners are a totally new concept that combines all the best features of a deep rib floor mat and the 'old style' liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded Chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. It also contains the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Unlike ordinary liners that utilize an inconsistent vacuum thermoform process and slippery lower grade plastic these liners are high pressure injection molded from OE-quality Thermoplastic that looks and feels like rubber and provides a nonslip surface. Raised nibs on the bottom provide maximum retention and keep the liner in place. The unique self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go!!! The mat actually reseals itself around the hook!!! Patent pending.

MOPAR. | OFFICIAL LICENSED PRODUCT

NEW! Licensed Jeep® Logo Cargo Liners And Floor Liners Now Available For 76-95 CJ7/8 & Wrangler

The deeply molded Chevron shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. "Deep Tread" technology!

Self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. The mat reseals itself around the hook!

The high perimeter wall offers a large footprint and maximum interior protection and containment.

The only Floor Liners with Deep Tread Technology!

NEW!

This is not your typical floor liner! Ordinary floor liners on the market today are constructed of extruded plastic materials vacuum formed to fit the vehicle. Rugged Ridge has taken a completely different approach to floor protection. Each All Terrain Floor Liner is injection molded for superior fit and quality. The injection molded process, though more expensive to develop, allows us to create a floor liner that has exacting measurements for better fit and finish along with a deeply formed perimeter wall for maximum coverage. Each All Terrain Floor Liner has chevrons that are up to 3/8" deep. That is up to 3 times the depth of other floor liners! We call this true "Deep Tread Technology"!

Dash Organizer for 2007-10 Wrangler

Looking for space to store that clutter? Introducing the new Rugged Ridge Dash Organizer for 2007-2010 Jeep Wranglers! This innovative new product incorporates existing mounting points to install a dual tray storage system right on your dash. Now you can easily store coins, pens, sunglasses, cell phones and other small items right in reach of both the passenger and driver. Installation is a snap; simply remove the original equipment screw covers on your dash, screw in the exclusive double headed mount and attach the Dash Organizer. It is that easy! Each Dash Organizer incorporates UV treated thermoplastic mounts and two trays with a painted aluminum cross tube for the ultimate in flexible design. Each tray can be mounted across the aluminum tube with thumb screw attachments. Rubber feet attached to the trays prevent rattling and provide a secure fit. The small tray has a special built in slot for MP3 players or cell phones with a belt clip (not included). Each tray has a special "recessed guide" that can be easily drilled out to create an out-of-the-way power cord locator. This exciting design has a low profile and does not interfere with driver visibility or air bag deployment.

Each Dash Organizer also includes a split bracket CB mounting kit and separate CB microphone holder for use with most smaller CB units. Holes in the bottom of the large tray have been pre-drilled for easy installation of these brackets and include a recessed area for optional out-of-the-way power cord use.

Each Rugged Ridge Dash Organizer comes with a removable rubber tray liner which can be removed for cleaning while providing a rattle free surface for small items. Removal of liner exposes a smooth surface for use with suction cup accessories such as GPS, radar detectors, cell phone holders etc.

JK Rear Seat Organizer

NEW!

The perfect organization solution for your Jeep®! The new Rugged Ridge Back Seat Organizer features two separate storage areas to organize wayward trash, toys, drinks, iPods and other clutter. Each organizer is designed to instantly fit into the rear cup holders of your 2007-10 Jeep® Wrangler and includes a removable double walled lid. The large storage area will hold up to three 12oz. soda cans or two 16.9oz. water bottles with ice. The top lid can be easily removed creating a handy writing surface or small tray. The front tray can keep cell phones, iPods or other small items from rolling around the back seat. Easily removable to clean and empty, this truly is a must for your Jeep®!

Standard Replacement High Back Seats

13401.01 Standard Replacement High Back Set, Black

Want all the strength and comfort of our reclining seat but without the recliner? Look no further! The Standard Replacement Seat from Rugged Ridge offers all the great quality benefits of our reclining seat but we have removed the reclining mechanism. This low cost alternative gives you the value and quality you are looking for, but is priced less. Also available in the Standard series is our Low Back Replacement Seat (on page 41). This seat is specially designed for those earlier Jeep® restoration projects and uses the original mounting hardware and bolts from the original seats.

Standard High Back Front Seat For 76-02 Jeep CJ/Wrangler *

NOTE: 97-02 Wranglers require front seat adapter brackets 13201.11 (for driver side) and 13201.12 (for passenger side) for these seats to mount on the factory seat brackets. See page 42.

Factory Style Replacement Seat with Recliner

13402.09 Factory Style Replacement Seat with Recliner

Replacement seating that reclines just like the original! All Rugged Ridge Seating is manufactured to exacting specifications to guarantee only the highest quality. Each seat is constructed of durable automotive grade vinyl that is designed to match your vehicles interior and all Rugged Ridge rear seats. All frames are powder coat painted and welded to make sure it can take those off-road adventures and years of open air use. The foam pack and spring system used on all Rugged Ridge Seats is extremely dense for long life yet soft enough for true comfort. Soft side bolsters "cradle" the driver making driving a pleasure. Each seat features an infinitely adjustable reclining mechanism to ensure proper driving position and the ultimate in comfort. All Rugged Ridge seats feature a stylish stitch pattern and original equipment bolt pattern for ease of installation and a great original equipment look. Simply remove the old seat and bolt in the new!

* ⚠WARNING: Caution: replacement seating is offered for restoration or off-road use only. Replacement seats are provided by third party vendors and are not represented as meeting FMVSS standards.

The Super Seat

This might be the last seat you will ever own for your Jeep®! Luxuriously soft side and bottom bolsters cradle you in comfort while providing stability on those off-road trails. Each seat features an infinitely adjustable reclining mechanism to ensure proper driving position and the ultimate in comfort. The adjustable head rest is secured by dual steel rods and backed by a powder coat steel reinforcement plate that is surrounded by dense poured foam. The main structure is powder coat painted steel with heavy-duty suspension springs creating a rigid support frame. This frame is then surrounded by the best poured foam you can buy and wrapped in tough automotive grade vinyl fabric. Comfort, strength and stability all in one seat! As with all Rugged Ridge seating, all feature a stylish stitch pattern and original equipment bolt pattern for ease of installation and a great look. Simply remove the old seat and bolt in the new!

* WARNING: Caution: replacement seating is offered for restoration or off-road use only. Replacement seats are provided by third party vendors and are not represented as meeting FMVSS standards.

RRC Reclining Racing Seat

You have seen the rest, now here is the best! More features, more comfort, and the best pricing of any racing seat design. Each seat features dual reclining mechanisms allowing for infinite reclining positions. The special "Jeep® Specific" design uses ultra dense foam and steel construction for greater comfort and long life. Side bolsters have been slightly expanded and designed specifically for both lifted and non-lifted Jeep® vehicles. Special air adjustable lumbar support provides the most comfortable back support in a racing seat design. Woven fabric and vinyl construction give the ultimate in comfort and wearability. Each seat has three seat belt harness cutouts for use with a multi-point racing harness seatbelt. 1997-02 models require the Rugged Ridge mounting bracket for installation (shown below).

Fold & Tumble Rear Seats

Need more rear storage space in the back of your Jeep®? Simply "fold and tumble" the Rugged Ridge Rear Fold and Tumble Seat and you create instant cargo space. Each seat is constructed of durable automotive grade vinyl that is designed to match your vehicles interior and all Rugged Ridge front seats. Each frame is powder coat painted and welded to make sure it can take those off-road adventures. The foam pack used on all Rugged Ridge Seats is extremely dense for long life yet soft enough for true comfort. Installation is easy with attachments to existing mounting points and minimal drilling required. Uses existing seat belts.

EASY AS 1-2-3

Just fold the seat back forward, and tumble the whole seat up and out of the way

Protect your Jeep's® interior with these two great Seat Cover options: Custom Fit Neoprene Seat Covers or Custom Fit UV treated Poly Cotton Seat Covers, both from Rugged Ridge. These covers are constructed of either durable neoprene or tough poly cotton fabric creating the best looking custom seat cover available. Rugged Ridge does not use that cheap stretch nylon on their seat covers! Neoprene (wetsuit material) is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you. Poly Cotton is a great fabric to protect your seats from dirt, sweat and heat from the sun. No more burned legs from hot vinyl seats! Each cover is custom tailored for your Jeep's® original equipment seat style making your seats look like they have been recently re-upholstered. Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. Available in black on black, grey on black, red on black (neoprene models only) and tan on black to complement virtually any Jeep® interior. 2003-2010 models have the center section stop before the headrest. All other models have the center portion (color) going all the way to the top of the seat.

Replacement Center Consoles

Rugged Ridge Consoles are the ultimate storage solution for your CJ or early model Wrangler. Each console is constructed of durable Jeep® interior matching vinyl wrapped around plastic coated hard wood to keep moisture out and provide a great looking addition to your Jeep®. Each console is hand made to ensure a tight, wrinkle free finish. All Rugged Ridge Consoles feature a six can cooler, all mounting hardware and a dense foam arm rest for long life and a comfortable feel. Need lockable storage? No problem. All Rugged Ridge Consoles incorporate a locking mechanism to deter access to the storage compartments. Available in three unique styles and sizes, Rugged Ridge Consoles are the best storage solution available.

Rugged Ridge II Consoles feature dual adjustable cup holders, removable soft sided CD holder, two oversized storage areas, back seat cup holders and a rear map pocket.

Ultimate Locking Consoles feature dual front cup holders, removable CD tray, can cooler, coin storage tray and sunglass holder.

Custom design for use in Jeep® glove boxes. Special pockets allow you to effectively organize owners manuals, maps, tire gauges, vehicle registration and more. Constructed of durable nylon in a tri-fold configuration.

Sound Bars

Pump up the music with these high fidelity Sound Bars from Rugged Ridge. Designed to fit directly behind the center hoop of all 87-06 Jeep® Wranglers and Unlimited vehicles, these Sound Bars are one stop 200 watt peak power "sound machines". The six speaker pre-wired bar features a 40-22,000 Hz frequency response. Outstanding midrange from a pair of 2" midrange speakers, thumping bass from the two 6.5" woofers and a pair of 1" tweeters for exceptional high frequencies make the Six Speaker Bar sing! The Two Speaker pre-wired speaker bar features a 100-20,000 Hz frequency response for dynamic sound quality. All Rugged Ridge Sound Bars include dual map lights and mounting hardware.

97-06 Wrangler, Honey, 6 pc. Set	13691.10

Note: These kits require the purchase of spray adhesive which can be found at any hardware store.

Nothing refreshes the inside of a vehicle like new carpet. This NEW design provides Tufted Polypropylene carpet with electronically surged edges that will not unravel. Polypropylene is a space-age polymer chosen for its rugged durability and resistance to chemical solvents and mildew. Full interior design includes tailgate and wheel well coverage. Features jute backing and driver side vinyl heel guard. Thanks to the sound deadening properties of the carpet, interior noise will also be reduced. The precut six-piece design is made for your vehicle to ensure proper fitment. Available in three popular and attractive colors to match your Jeep's® interior.

Electronically Surged Edge Will Not Unravel

LED Mirrors & Heated Mirrors

Looking to upgrade your current mirrors with the very latest features? Rugged Ridge offers a wide variety of special mirrors that offer you added features at economical prices. We offer heated mirrors, LED turn signal mirrors, Dual Focal Point mirrors and special mirror relocation brackets to place your mirrors on the vehicle if you remove your doors. Look to Rugged Ridge to offer the widest variety of replacement mirrors available for Jeep®. Special heating elements are incorporated into the mirror to quickly defrost your mirror during those cold winter days. The latest in mirror technology puts an LED light on the side of the mirror that turns on when you use your turn signal or parking lamps. This great feature lets the driver beside or behind you know you are turning. Mirrors available with heat, LED or BOTH! Some wiring and drilling required for installation.

Stainless Hinge Treatments for 2007-10 Wrangler

These cast stainless design Hinge Treatments are guaranteed not to rust while providing a new beefy look. Door and Hood Hinge covers feature a easy-to-install design. Replacing your existing hinges can break & crack the surrounding paint, as the hinges were painted at the factory after installation. These covers retain the stock hinge but give it a new look without harming your expensive paint. A direct bolt on - no drilling required, fits either side. Use #11113.06 for 4-door models, #11113.05 for 2-door models and #11111.10 for hood.

Fast and easy installation on your door or hood hinges

Stainless & Billet Style Gas Hatch Covers

Create a custom look in just a few minutes. This special design fits directly over the existing gas cap opening. These tough gas covers are available in either stamped stainless steel, polished aluminum or chromed aluminum and are specially treated for resistance to gasoline and other chemicals. Unlike other designs on the market, installation does not require the removal of the tail light or internal gas cover components. For 2007-10 Wranglers the cover attaches directly to the original equipment plastic insert using self tapping screws with no need to remove the existing plastic insert. Available with or without locking mechanism. Please note that your factory gas cap is still required.

Front Euro-Guards

Protect your headlights from debris and get that offroad look with a set of Rugged Ridge Euro-Guards. Constructed of durable powder coated steel, these front Euro-Guards are designed to last. No drilling required for installation. Each kit comes with a pair of guards to cover both sides of the vehicle. The side marker light guards are a great complement to our front light Euro-Guards. Installation is easy and light visibility is not hampered. Sold in pairs. The turn signal light guards are designed to match our Headlight Euro-Guards. They feature the same great style and construction. They give a rugged look while protecting an important area. Sold in pairs.

Hinge Treatments for 2007-10 Wrangler

These cast steel design Hinge Treatments are guaranteed not to rust while providing a new beefy look. Door and Hood Hinge covers feature a easy-to-install design. Replacing your existing hinges can break & crack the surrounding paint, as the hinges were painted at the factory after installation. These covers retain the stock hinge but give it a new look without harming your expensive paint. A direct bolt on - no drilling required, fits either side. Use 4 hinge treatment pairs for 4-Door models, 2 pairs for 2-Door models and 1 pair for hood.

Enhanced Four Color Skin Packaging

NEW!

As always, Omix is continuously looking for ways to improve both the quality and the marketability of our products. In the recent months we have made significant improvement in our packaging. Many of our great new products like: All Terrain Floor Liners, Winches, and Recovery Gear come with slick new four color packaging that increases both the Retail and Out of Box experience. But we are not stopping there. Effective immediately Omix is offering four-color skin packaging for our hottest selling Rugged Ridge accessories. This process adheres product to a graphic cardboard backing with a clear plastic film. The result is an attractive yet pilfer resistant package that requires minimal shelf space for stocking. It drives home sales by giving consumers a full view of the part they are looking to purchase. Enhance your show room and POS displays by adding the hottest new accessories from Rugged Ridge today. A complete listing of the 165 parts available in skin packaging is located in Price List Section of our ecommerce site.

Rugged Ridge Synthetic Rope Performance Winches!

We have taken the high quality features of our regular winch and replaced the steel cable with genuine Dymeema SK-75 Synthetic Rope for a lighter weight, high performance winch option. The synthetic rope used on Rugged Ridge winches is custom designed for heavy duty use and combined with the included polished aluminum hawse fairlead and 12' hook, will provide the ultimate in pulling power.

Rugged Ridge 8,500 Synthetic Rope Winch- 11/32" x 100', Breaking Force 16,550lbs

- Constructed with Dyneema SK-75 fiber from the Netherlands.
- Same high strength fabric used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Heavy Duty 11/32" 12-strand braid with a breaking force of 16,550lbs
- Hawse fairlead included

ALL RUGGED RIDGE SYNTHETIC WINCHES INCLUDE AN ALUMINUM HAWSE FAIRLEAD

Why Synthetic Winch Rope?

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge high strength synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV -treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries caused by the whiplash of broken wire rope.

- Same high strength fabric used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV , abrasions, and chemical solvents.
- Protective sleeves keep line from overheating on winch drum.

Winch Cover

Keep your winch looking as good as the day you bought it with the Rugged Ridge winch cover. Constructed of durable vinyl with reinforced grommets. Custom fit for Rugged Ridge Winches

Replacement Synthetic Winch Rope

NEW!

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge high strength Synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope dos not store energy like steel cables, and in the event of a failure it is much less likely result severe injuries caused by the whiplash of broken wire rope. Each replacement rope kits can be easily attached to your current winch by removing your current steel cable and roller fairlead. A new Hawse Fairlead will be required for use with Synthetic Rope.

Synthetic Winch Rope	Part #
Synthetic Winch Rope 11/32" x 100', Breaking Force of 16,550 lbs, Each (NEW)	15102.10

Gas Tank Skid Plates

The last thing you want to happen on a trail ride is to lose the only thing that keeps your engine running: gas. That's why Rugged Ridge has custom designed this Skid Plate to protect the gas tank on 1987-06 Wranglers. This overbuilt skid plate is a must for those who want that extra bit of protection for their off road adventures. Constructed of durable 3/16" thick powdercoated steel with a rust resistant E-Coating, this Skid Plate is designed to take whatever the trail throws at you! Bolt-on installation using existing frame mounting locations. This skid plate replaces the factory skid plate.

Skid Plate For 2007-10 Wrangler

JK

Custom designed to protect the steering components on all 2007-10 Jeep Wranglers, this overbuilt skid plate is a must for those off road adventures. Constructed of durable 1/4" powdercoated steel with a rust resistant E-Coating, this Skid Plate is designed to take whatever the trail throws at you! Designed to fit with all Rugged Ridge front bumpers (looks amazing with the XHD Bumper system!) or all factory front bumpers, this skid plate provides protection for all front steering components including the very expensive electric sway bar disconnect system found on Rubicon models. Easy to install frame mount design incorporates special gussets and welded brackets to ensure long life and great off road performance.

Front Skid Plate for 07-10 Wrangler	Part #
Front Skid Plate- All RR bumpers, all factory original bumpers (NEW)	18003.30

EVAPORATOR SKID PLATE

Rugged Ridge offers a wide variety of skid plates and body protection for Wranglers. You can wheel with confidence knowing these skid plates will help keep you from getting hung up on rocks, trail obstacles, while preventing damage to critical components. The Evaporator Skid Plate is constructed of durable 3/16" thick black powder coated steel, and mounts to existing body holes using the factory hardware. It helps transfer the load of an impact away from the evaporator tank and to the frame and cross member.

Heavy-Duty Differential Covers

Indestructible! You won't break these covers, we guarantee it. Made of 3/8" cast steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been "44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for easy of installation.

Dual Battery Tray Kits

NEW!

11214.52

Outfitting a trail rig can add greater strain to the electrical system. Adding on a winch, air compressor, fog lights, driving lights, a spot light, electric fuel pump, and a stereo amp can really tax the battery. A great way to combat that strain to to install dual batteries. This is especially true when using a winch, which can draw big amps for an extended period. These kits are designed to mount two batteries in place of the factory single battery location. The trays and brackets feature a black powdercoated finish. These are mounting kits only and do not include any wiring. A suggested wiring diagram is included. 70-95 CJ & Wrangler kits place the batteries side-by-side and may be used with lead acid or cylindrical-style sealed gel cell batteries. 97-06 TJ Wrangler kits stack the batteries and are for use with cylindrical-style sealed gel cell batteries only due to the battery mounting direction.

Off Road Jack Mounting Bracket, Hi-Lift Style, Jeep Wrangler (JK) 07-10, Pair (NEW)	11586.01

Heavy Duty Tire Carrier Mount

If you have installed larger tires on your rig then a matching spare tire is a must. The problem comes when you try to bolt that new monster tire/wheel combo on your factory spare tire mount. Rugged Ridge has the answer with the HD Tire carrier Mount. The HD Tire Carrier Mount is constructed of heavy 1/4" steel plate and mounts to the tailgate. The tire is relocated two inches up and out from the old mount for larger tire clearance (Maximum tire size=35").

Heavy-Duty Tire Carrier & Spacer	
11585.01	Textured Black, 87-06 Wrangler, Each

⚠ CAUTION: The tire carrier mount is designed to fit tires 35" in diameter or less.

11585.01 Tire Carrier Mount, Textured Black, 76-06 CJ/Wrangler

Heavy Duty Tire Spacer

The Spare Tire Spacer bolts to your existing factory spare tire mount and relocates the tire two inches up and out. Both the HD Tire Carrier and Spare Tire Spacer feature 5x4.5" and 5x5.5" wheel bolt patterns and tough powder coated black textured finish. Caution: The tailgates on 07-10 Wrangler models are not designed to hold extra large tires. Therefore, do not use a tire larger than a 33x12.50" or equivalent tire with this spacer. If you want to carry a larger tire, we recommend using the XHD Rear Bumper with Tire Carrier (Only for JK 07-10)

11585.02

Heavy-Duty Tire Carrier & Spacer	
11585.02	Textured Black 76-10 CJ/Wrangler, Each

⚠ CAUTION: The tire carrier spacer is designed to fit tires 33" in diameter or less. Do no exceed these tire sizes

Manual Locking Hubs

Knee deep in mud with a failed automatic hub and a disabled vehicle? The only way to repair it is to replace it. The question is, with what? Factory automatic hubs have a history of failing when you need them most. A damaged hub will render your 4x4 useless and leave you stranded. Wish you could swap your venerable automatic hubs to a set of manual locking hubs? Rugged Ridge has heard your plea. Rugged Ridge Manual Locking Hubs are unanimously recognized as the world's toughest hubs by our thousands of satisfied customers worldwide. Brute strength matters, that is why the bodies of our hubs are crafted from impact resistant nodular iron, and feature a corrosion resistant die cast aluminum cap. Our hubs deliver better 4WD performance when locked and improved fuel economy in 2WD when unlocked, than automatic hubs. Purchasing a set a premium manual hubs is more cost effective than servicing your worn factory hubs. With the money you save you'll be able to carry a spare set, not that you'll need them. Sure you have to get out of the cab to lock the hubs, but unlike automatic hubs you won't have to wait until you lose traction for your four-wheel drive to engage.

Rugged Ridge Premium Hubs Feature:

- A full metal cap and body crafted from impact resistant nodular iron.
- Corrosion resistant die cast aluminum caps coated with high luster epoxy enamel for along lasting finish.
- Better 4WD performance when the manual hubs are locked. Works in reverse and compression braking.
- No slippage or partial engagement / disengagement issues that plague automatic hubs.
- Better fuel economy by freewheeling in 2WD mode. Great for any "tow vehicle".
- Decreases wear on internal components by engaging 4WD only when needed.
- More durable and cost effective than replacing or servicing automatic hubs.
- Ridiculously simple installation. Your average installation is completed in less than 20 minutes.
- Manual hubs offer extra gear ranges. By unlocking your hubs and driving in 4WD mode, you gain use of 2WD Low and 2WD High ranges.
- 1998-00 Ford Ranger (15001.70) application is only available from Rugged Ridge!

07-10 Wrangler 2-Door, Rear, Each	16592.21
07-10 Wrangler 4-Door, Rear, Each	16592.20

*** NOTE: A CV equipped drive shaft will be required for this conversion kit.**
**** These drive shafts use 3-5/8" wide U-joints, please verify the U-joint size.**

This kit is a MUST if you installed a 2" or taller suspension lift in your 1987-2006 Wrangler (not needed for body lifted Jeeps®). The kit fits all 1987 and up NP 231 transfer cases. A Slip Yoke Eliminator Kit (SYE) will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift. The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed yoke and CV-style drive shaft assembly. The Mega Short SYE (18676.72) is designed to be used in the same lift applications as the other standard SYE kit (2" and up). The main advantage to the new Mega Short SYE is that it allows for a much longer drive shaft to be used (additional 3"). This reduces drive shaft angle, improves bearing & U-joint life, reduces driveline vibrations. It also has a shorter and stronger main shaft design with improved oiling. Will not work with cable driven speedometers. Not for use with Rubicon models.

18676.60 Slip Yoke Eliminator Kit

16592.06 CV Equipped Drive Shaft for 97-06 Wrangler

WARNING:

WARNING: OEM slip yokes on 1987-2006 Jeep® Wrangler are not suitable for use with 2" or taller Rugged Ridge™ or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2" or taller. See additional product safety information and WARNINGS at back of catalog.

*See page 221 for NP231 Transfer Case Parts

Lower Control Arm Mounts for 1997-06 Wrangler

Designed to replace and upgrade the weak OE front lower control arm mounts on 1997-06 Wranglers. These heavy-duty weld-on brackets provide a secure mount when driving off road. Greater wall thickness combined with a welded alignment cam provide extra support to the axle.

Lower Control Arm Mount	Part #
Lower Control Arm Mount, 97-06 Wrangler, Pair	18273.01

Heavy-Duty Steering Box Mount

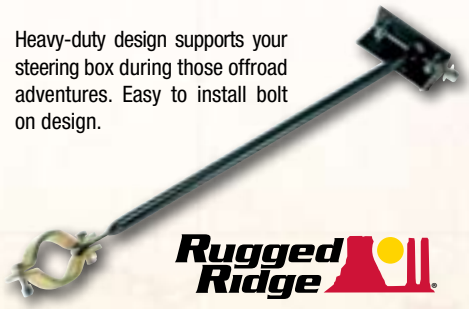
18003.10 Heavy-Duty Steering Box Mount

This overbuilt mounting system eliminates the two piece original equipment version that is prone to fatigue and cracking. With this mount, we have integrated a clamshell frame plate eliminating any potential weak points. Each kit is complete with all hardware and installation instructions. This is the last steering box mount you'll ever need to buy!

Heavy-Duty Steering Box Mount	Part #
76-86 CJ w/power steering, Kit	18003.10

Heavy-Duty Steering Box Brace

Heavy-duty design supports your steering box during those offroad adventures. Easy to install bolt on design.



HD Steering Box Brace	Part #

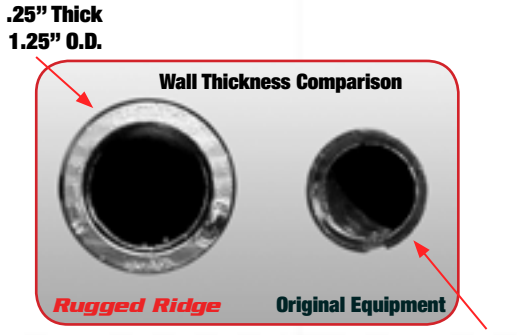
84-01 Cherokee, Each	18021.05

Heavy-Duty Steering Kits & Components

Beef up your ride with Rugged Ridge steering components. This is a bolt-on solution for preventing bent tie rods from wheeling with larger tires. The tubes are 1-¼" ID SAE 1018 steel that is cold rolled, pierced, and drawn through dies to produce a wall thickness of ¼". This is true DOM tubing with *no* seams *or* welds to fail. Heavy-duty 7/8" rod ends feature standard tapered ends to fit stock knuckle applications. You get one ton strength without any modifications to your steering knuckles. The Heavy-Duty Crossover Steering Conversion Kit replaces the bump-steer prone inverted Y-type steering system. This kit connects the drag link to the end of the tie rod at the wheel, giving a better steering angle and better leverage. If your vehicle is lifted a crossover steering system is a must!



Rugged Ridge Heavy-Duty Tie Rods compared to Original Equipment

Heavy Duty Crossover steering systems prevent "bump steer"!

Heavy-Duty Kits	Part #

Front Adjustable Track Bar and Frame Stiffener	Part #
Front Adjustable Track Bar, 84-01 Cherokee XJ, 93-98 Grand Cherokee *	18205.05
Frame Stiffener, 84-01 Cherokee XJ, 93-98 Grand Cherokee **	12035.51
Track Bar/Frame Stiffener Kit (consists of 18205.05 & 12035.51)	18205.20

* For use with 4" & over lifts
**Can only be installed in conjunction with P/N 18205.05

The Adjustable Track Bar's function is to properly locate and center the front axle under the body of your Jeep® and improve its handling capabilities and steering geometry. This kit is designed to correct misalignment that can develop with Jeeps® with 4" of lift. Our track bar tubes are constructed with the same beefy 1.25" OD x.25" wall DOM tubing found in our Heavy Duty Tie Rod Kits! The bar is powder coated black to prevent corrosion and includes: polyurethane bushings, heavy duty mounting bracket and features a 7/8" zinc plated rod end. This a great companion to our 84-01 XJ and 93-98 ZJ Heavy Duty Crossover Steering Kit #18050.82. For the ultimate in front end ridgidity add on our Frame Stiffener #12035.51. This piece ties the front frame rails together while bracing the track bar mount. It is specifically designed for use with the Adjustable Track Bar (#18205.03) only.

12035.51 Frame Stiffener

18205.05 Adjustable Track Bar

RRC Tubular Flat Fenders

These over-built tubular fenders were designed for maximum suspension articulation while still maintaining a factory-style inner fender liner. Tough 0.120" wall tube is attached to 1/8" steel plating for one tough fender design. RRC Tubular Flat Fenders are direct factory replacements with a built in full fender liner (some drilling my be required) allowing for all factory engine accessories to be mounted by using the factory mounting hardware. Fenders are packed in pairs, primed for paint. Though these flares cover most tires, they are designed for offroad use and additional flare coverage may be needed for onroad use in some states. Two unique styles to choose from: Basic model requires greater installation (drilling) and more sheet metal work before painting. It also includes the side marker light housing. Upgrade model bolts directly on using factory inner liner has ground welds and is ready for paint. The upgrade version does not include the side marker light housing and is designed for offroad use only.

Part #	Description
12004.61	Basic Flat Fender, 97-06 Wrangler, Primer, Pair
12004.53	Upgrade Flat Fender, 97-06 Wrangler, Primer, Pair
12004.60	Basic Flat Fender, 87-95 Wrangler, Primer, Pair

HD Clutch Link Kit

Replaces the factory style L-bracket with retainer clip clutch rod with an up-graded spherical rod design. Allows for full clutch engagement during heavy body and frame flex situations while off road, where the factory design has tendencies to bind not allowing you to get into gear. Also can be used with up to 3" body lifted vehicles replacing the shorter factory clutch rod.

HD Clutch Link Kit	Part #
1976-83 CJ5, 1976-86 CJ7, 1981-86 CJ8. Stock - Up To 3" Body Lift. (NEW)	16919.30

Hood Lock

Special design virtually disappears into the grill. Cam lock design keeps people out of the engine compartment of your Jeep®. These clever applications install in minutes. An upgraded internal lock cover keeps ice and debris from fouling the lock mechanism.

HID Off Road Lighting

We mated the brilliance of High Intensity Discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is more efficient and powerful beam better capable of illuminating the night sky. HID lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6" and 5" HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish. Rugged Ridge lights feature waterproof connections, internal ballast, and a reinforced multi-directional mounting base. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards and illuminated dash switch.

- 5", 6", 7" HID light assemblies available.
- 12V 35W 4200K HID Bulb.
- Internal ballast - no external ignition ballast to install.
- 2½ times more powerful than halogen bulbs.
- Draws 60% less current than a standard 100W fog light.
- HID Lights include impact resistant stone guard.
- The average life of an HID bulb is 2000 hours, compared to 500-1000 hours for a halogen unit.

Lights are available individually.
All include impact resistant stone guards

Halogen Off Road Lighting

Designed, engineered, and tested to stand up to the rigors of off road use, our lights are constructed with heavy-duty stamped steel housings, and crystal glass lenses set in shock absorbent weatherproof rubber gaskets. The brilliant 12V 100 watt halogen bulbs slice through fog, rain or snow to help illuminate the road even under the toughest conditions. Available in Round, Rectangular and Slim housings in either a black or stainless steel finish to best suit your application. Slim lights feature a narrow profile just 2 13/16" thick! This sleek design allows them to be mounted in places most lights won't fit. They are perfect for windshield and grille mount light systems. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards (white stone guards with stainless, black with black) and illuminated dash switch.

Front Bumper Light Bars

Rugged Ridge has engineered a durable and easy to install light bar that allows you to add auxiliary lighting to your factory Wrangler bumper. The light bar bolts to existing mounting holes and installs easily without cutting, drilling, or removing the bumper. With a few simple hand tools you will be able to install your light bar and mount up to three lights on your Jeep® while retaining your factory bumper. Lights not included.

Rugged Ridge JK Windshield Light Bar

The Ultimate Light Bar for your Wrangler! This exciting new design has been created to give the durable look of a five tab light bar with features found nowhere else. Through extensive testing, this heavy duty light bar incorporates a special wind deflector below the light bar to dramatically reduce whistling and "buffeting" of your soft top. Each bar hugs the contour of your windshield providing a great look while not interfering with the use of your hard or soft top. Oversized 2" textured black tubing attaches to your windshield mounts with no drilling. Each Light bar has five light tabs for use with Rugged Ridge Lighting options (fits up to five 7" lights). Each light bar has been specially developed to work with Rugged Ridge Light mount brackets and/or Rugged Ridge mirror relocation brackets. Special three piece design makes the packaging small for ease of shipping. This is truly the most advanced light bar on the market!

Stainless Steel Cat-Back Exhaust System

Open up your Jeep's® exhaust with this great looking and long lasting stainless steel exhaust system. You'll get a mellow exhaust note that will set your rig apart. The 2-1/4"mandrel bent pipes give hot exhaust gases a smooth exit without the constrictions found in crush-bent pipes. This is a bolt-on system that installs after the catalytic converter to keep you emissions legal. The dual split exits feature slash cut and rounded oval tips for a tough look. Includes all necessary mounting hardware.

Rugged Ridge

Would you try this with your muffler?

Stainless Headers for 2007-10 Wrangler

Our custom Exhaust Headers are engineered to deliver improved performance. The 3.8L isn't a bad motor it just needs more air to "breathe" properly. Our headers increase exhaust gas exit velocity to move more air through the cylinder head's combustion chamber resulting in performance gains. They are constructed of 409 stainless steel to ensure a long operating life. Each complete kit includes manifolds, gaskets, hardware, clamps and easy to read instruction sheets.

Stainless Steel Headers	Part #
2007-10 Wrangler w/3.8L Engine, Each (NEW)	17650.53

Rugged Ridge Headers

These high quality Rugged Ridge headers are available in four finishes: polished 304 stainless steel, non-polished 409 stainless steel, high temperature metallic black ceramic and black painted for a long operating life. All Rugged Ridge designs are extra tough for extreme usage. Flanges are welded 360 degrees to stand up against the hottest conditions. Our polished stainless design gives your engine that new, hot look. Our ceramic coating look great and protects against corrosion & thermal fatigue while increasing horsepower and extending the life your of header. Ceramic headers retain heat better than their chrome or stainless counterparts. Retaining exhaust heat improves air density in the cylinder head's combustion chamber for enhanced air flow. This improved flow increases the exhaust gas exit velocity, and cuts down on your under hood temperature, resulting in performance gains. Each complete kit includes manifold, gasket, hardware and down pipe flange gasket and is backed by a three year limited warranty against corrosion. 97-99 models re-use the factory head pipe. The complete bolt on kit includes manifold, gasket, hardware and down pipe flange gasket. All Rugged Ridge headers come with a limited 6 month/6,000 mile warranty.

Cold Air Intakes for Jeep®

Want more horsepower, better throttle response, and improved acceleration?

A Rugged Ridge Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs or torque, depending on application.

- Polished mandrel bent 6063 aluminum air intake tube.
- Simple no-drill installation bolts on using simple hand tools.
- Includes a high-flow conical dry panel filter that never needs oiling.
- Intake kit includes black powder coated heat shield
- Part # 17750.01 for 97-06 4L wranglers include a throttle Body Spacer as a part of the kit.
- Improves fuel economy up to 10%*
- Adds up to 10HP and 12ft lbs or torque**

Throttle Body Spacer

The Rugged Ridge Throttle Body Spacer raises the throttle body 1" above the intake manifold. The lift helps optimize power and performance by drawing in colder denser air. The large bore design allows your system to inhale a larger volume of air producing more horsepower and torque. It features solid aluminum construction with a slick anodized black finish, and is a bolt on performance adder for both 4.0L and 2.5L engines.

- Solid Aluminum Construction.
- Simple no-drill installation bolts on using simple hand tools.
- Includes mounting hardware, gaskets and spacers.
- Black Anodized Finish.
- Fits 91-06 Wrangler 4.0L & 91-02 2.5L & Cherokee 91-01 4.0L & 91-00 2.5L
